Motivated, hardworking, and outgoing Computer Science undergrad with a double Associates degree seeking Software Engineer Internship. Ready to put education and years of experience working on personal projects to work.

EDUCATION

California State University San Marcos - *San Marcos, CA*
Computer Science - B.S

January 2022 - June 2023 (Expected)

MiraCosta College - *Oceanside, CA*
Computer Science - A.S.T
Liberal Arts: Math and Science - A.A

September 2018 - December 2021

PROJECTS

Chess — *(C#)*
- Algorithimcly calculates and displays the possible moves each piece can make on the board.
- Graphical interface made mostly from scratch with some help from SFML libraries. All textures/sprites are hand-drawn.
- I am currently improving the AI opponent by using the min-max search and alpha-beta pruning algorithm.

Food Server App — *Android App (Java, CSS)*
- Stores a database of customer orders and links those orders to a separate tables (tabs) database.
- Allows restaurant servers to easily manage their tables and orders, so they know which orders need to come out next/which tables to be checked.

S&Box Content Developer — *Unreleased PC Game (C#, CSS)*
- A closed early-access video game that I was given access to based on the content I created for the company's previous title.
- My contributions so far have been helping fix/report bugs and adding additional content to the game for release.

KCThirftStore.com — *Thrift Store Website (HTML, CSS, JavaScript)*
- An E-Commerce website I created and designed from scratch for a thrift store based in Oceanside, CA.
- The website uses a custom Shopify Storefront API to process orders so the business owner can easily add new products to their store without any technical knowledge.

EXPERIENCE

Leucadia Pizza, Carlsbad, CA — *Delivery Driver*

Feb 2020 - PRESENT

Blue Ocean Robata & Sushi Bar, Carlsbad, CA — *Busser/Host/Expo*

Dec 2018 - Jan 2020

Nixon, Carlsbad, CA — *Temporary Assistant*

Jun 2018 - Sep 2018

- Supported technicians with repairs and managed support tickets
- Performed inventory management duties

Proficient Programming Languages:
